Back To Home

You will get the list of transactions made through selected option. In that list there will be 3 types of Status.

1) Success : The transaction having status as "Success" means the transaction is completed (transaction receipt also generated or can be generate) and also shown in allottee's HUDA account statement.

2) Transaction Failed : The transaction having status as " Transaction Failed" means the transaction is cancelled by user or insufficient funds or transaction not attempted or network failure.

3) Pending for Confirmation : The transaction having status as " Pending for Confirmation" means the transaction is pending. The allottee bank account is debited but not shown in allottee's HUDA account statement. In this case Allottee should select the incomplete transaction. The Track ID will automatically appear in the textbox, as shown in figure
